

Why Wilson?

Take a look at the several reasons why you should add our weBoost and WilsonPro brands to your product line.

High-Margin Product You're Not Selling

Quickly improve your bottom line by selling more high-margin Wilson products and accessories. Start by recommending Wilson to your customers for improving in-building cell signal coverage.

Why is Wilson the Best?

Solves a Universal Pain Point

Since every vertical and industry experiences cellular connectivity issues, demand is unlimited.

Cellular Connectivity for Everyone

Wilson products amplify cell signal for ALL U.S. carriers and cell devices; in-building and vehicle.

Offering Safety and Security

We ensure calls can be made when needed without requiring access to the customer's network.

Eliminates Building Interference

Wilson overcomes metal, concrete, glass, and other energy-efficient materials that block signal.

Why Install Wilson Products?

Premier Training Program

All integrators get Wilson University ICT training and earn 16 credits toward BICSI Certification.

Simple and Reliable

Dependable, easy-to-install products for anyone who's familiar with structured cabling systems.
